ase Personal
Page](#).

Hotel and Transportation

A block of rooms is available at the Hampton Inn - Denver West at \$159/night. [Reserve a room](#) in our hotel block.

If you are a Federal employee and you choose to make other hotel arrangements, the hotel rate must be at or below the GSA rate of \$178/night.

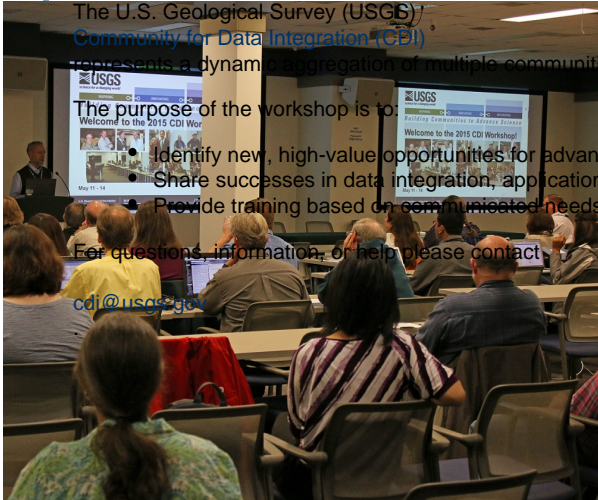

Train to/from the Airport

It is now possible to get from the Denver International Airport to the Denver Federal Center by train! Please consider taking the train and saving the government some money! Take the 'A' Line from the airport to Union Station. Then, transfer to the 'W' Line to Federal Center Station. Visit [RTD Lightrail](#) for more information.

Please check back for maps and driving directions

Welcome to the 2017 CDI Annual Workshop

The U.S. Geological Survey (USGS) Community for Data Integration (CDI)

is a dynamic aggregation of multiple communities of practice, focused on the advancement

The purpose of the workshop is to:

- Identify new, high-value opportunities for advancing data integration in the Earth sciences
- Share successes in data integration, applications, and tools;
- Provide training based on communicated needs.

For questions, information, or help please contact

cdi@usgs.gov

Propose a Session!

Session proposals will help us to develop the agenda and encourage participation.

Submit your session proposal [here](#). Please include title, brief description, envisioned format, and point of contact.

Agenda

A draft agenda for the CDI Workshop will be available soon!
